

Backstops Inspection/Maintenance List

Backstop Model: _____

Backstop Number: _____

Periodically inspect your backstops and all related equipment and attachments. Frequency of inspections depends on use of the equipment. Use guidelines mentioned earlier in this manual when conducting inspections.

Below is a checklist to assist you in keeping a record of backstop inspections and maintenance. Cut, copy and post this page as a record of previous inspections and equipment repairs on each backstop. Place a checkmark or enter information in the appropriate box.

| Inspection Item | Date | Satisfactory | Cleaned | Needs Repaired/Replaced | Problem Encountered |
|-------------------------------|-------------|---------------------|----------------|--------------------------------|----------------------------|
| Winch Drum | | | | | |
