VB1000NS Centerline[®] Aluminum

Centerline Aluminum is our most popular selling competitive volleyball system for college and high school facilities and is often the choice of other facilities who desire the advantage of lightweight aluminum systems without sacrificing the rigidity, net tensioning and telescoping features found on heavier steel standards. Net can be set at any height from junior's to men's. Sold in complete systems including 3" diameter standards, net tensioning devices, Kevlar net, post padding and antennae with adjustable foot pads. **Order floor sockets separately.**

VB6000NS Match Point[™] Aluminum

Match Point is the perfect solution when your needs call for a 3 1/2" diameter lightweight, low cost, easy to set up system for all levels of play. Match Point allows infinite net height adjustment from 42" tennis height through 96" men's volleyball. Includes many of the premium features found in our Centerline Systems. **Order floor sockets separately.**

VB7222NS CarbonLite[™] Composite

At 17#, the lightest weight competition volleyball post on the market making it perfect for facilities where set up is frequent. The 3" outer post and telescoping inner post are constructed of computer wound carbon fiber resulting in a superior weight to post rigidity ratio. **Order floor sockets separately.**

Visit www.bisoninc.com for our complete line up of volleyball systems.

VB73A Clamp-On Official's Platform

A popular choice that provides a stable platform with minimal player or visual interference. Compatible with any Bison volleyball standard. Standard padding color is gray to match powder coated finish. Padding also available in Black, Maroon, Navy, Royal or Scarlet.

VB76 Freestanding Folding Official's Platform

Folds flat for transport and storage. Gray padding coordinates with platform finish.
